

# Muhammad Ali Hassan

## CEO

I am an all time learner with a Degree of Software Engineering in my drawer. Started my career during my studies in July 2013 with the post of Android Development. Later on Started Software Company in the end of 2013. I become the middleman with the responsibilities of communication with clients online and deliver it to my Team. So the skills apparently I got were Mobile development, Communication with clients, Team and Project Management.

## HOBBIES

Music, Traveling, Cricket

## PERSONAL INFORMATIONS

### Interests

I love music, code, traveling and sports. I was the winner of Android Week in University of the Punjab, Lahore. Travelled alot inside Pakistan and to India and Saudia Arabia twice.

## EDUCATION

### Software Engineering

2010-2014

University of the Punjab, Lahore

In Pakistan's Top IT College I gradudated with the majors in Software Engineering in 2014.

## WORK EXPERIENCE

### Techleadz, Lahore (Jul 2013 - Jan 2014)

I have worked and learned Android Development from Techleadz, worked on several applications here including Uber copy A1Ryde, that actually helped me to improve skills very fast and in diff domains.

### Al-Burraq Technologies, Lahore (Nov 2013 - Present)

Here I learnt the execution of Projects, worked on different scale of projects. From Top to bottom experienced many ups and downs that actually taught many things. Below are some projects I worked on.
